

VIVE Focus Series

All-in-One VR Solution

The VIVE Focus Series 3 Virtual Reality Headset System is an all-in-one VR solution for professionals. It offers sharp 5k resolution, up to 120-degree wide field of view and 90Hz refresh rate. Enjoy the most comfortable VR experience with innovative counterweight design that

delivers ergonomic comfort with near 50-50 front-back balance while experiencing true wireless VR freedom with a sleek all-in-one form factor and precise room scale tracking without the requirement of a tethered PC, base stations, or external sensors. See and use your hands in VR for a more intuitive metaverse experience, and set down your controllers anytime to activate 26-point hand tracking, allowing you a new level of precision as you interact with your virtual surroundings. Unlock custom actions within your VR applications with built-in hand gesture recognition. Content compatibility required.

Controller-Free VR: Navigate menus with a simple pinch of your fingers

True Virtual Hands: Click, drag, scroll and type with your bare hands.

Safety Made Easy: Seamlessly draw the boundaries of your physical space.

A Solid Foundation: Set your virtual floor height with a simple push of your hands.

Remote Collaboration: Work with your team across physical distance and multiple locations. Engage just like in-person with powerful and interactive VR tools.
